WORK EXPERIENCE

ITENTIAL

Software Engineer (Front End)

November 2021 – May 2023 | Atlanta, GA (Remote)

- Team A: Led a 4-month long project to upgrade local UI dependencies, adding new features and resolving bugs using React, Emotion CSS and JavaScript.
- Team B: Planned, Architected, and Led the Frontend team to develop a new project from scratch, collaborating with backend, design, and managers teams using React, SCSS, and Typescript.
- Demonstrated strong frontend development skills through project leadership and development in both A and B teams.
- Utilizing front-end technologies like HTML5, CSS3, and JavaScript framework React, we developed and deployed responsive and user-friendly web interfaces that improved user experience and boosted website speed.
- Ensured seamless integration of front-end elements with back-end systems by working closely with cross-functional teams, including designers and back-end developers, to transform wireframes and mockups into fully functional and aesthetically pleasing websites.

MINORITY PROGRAMMERS' ASSOCIATION (MPA)

Front End Engineer (Contract)

April 2021 – August 2021 | Washington D.C. (Remote)

- Actively developed and enhanced user interfaces for web applications as a Front End Engineer, utilizing React, Tailwind CSS, and Next.js to deliver captivating and responsive digital experiences.
- Collaborated across remote teams to integrate design mockups into functional code, showcasing a keen eye for detail and a deep understanding of front-end technologies to ensure seamless user interactions and a polished final product.

ALPHA GYMNASTICS

Lead Website Developer

November 2018 – December 2021 | Woodinville, WA

- Using HTML, CSS, and JS in order to build, host and manage a business website that brought a significant volume of new customers to the gym.
- Monitoring, assessing, and reporting on website performance.
- Providing administrative support, including scheduling group meetings, maintaining calendars, doing research, and creating reports.

VISAGINAS CITY SPORTS CENTER

Junior Web Developer

September 2014 – May 2015 | Visaginas, LT

- Was in a team of 2 to perform daily tasks of managing the website, fixing small bugs, and learning a lot from my coworker Senior Developer.
- Performed fixes in HTML CSS and JS to fix small issues.
- Getting a hand of using WordPress as a CMS.
