## Skills

- React | JavaScript | TypeScript | Next.js | Vue | Nuxt.js | Redux | jQuery | MySQL | Git | GitLab | GitHub | Gulp | Figma | Cypress
- CSS | HTML | SASS | SCSS | Tailwind | CI/CD | Bootstrap | Frontend Development | pnpm | npm | yarn | Google Cloud Platform
- C | Vite | Jira | RESTful API | Webpack | Docker | Django | MySQL | Python | SQLite | MongoDB | PostgreSQL | Testing Frameworks
- Microservices | Distributed Systems | Accessibility | Performance Optimization | Responsive Design | SEO | SaaS | AWS | Terraform
- English, Russian, Lithuanian – All professional proficiency or above

## Experience

### Front End Developer

### Upwork

07/2023 - Current

- Developing and maintaining **Next.js** applications for various freelance clients, ensuring timely completion and client satisfaction.
- Providing front-end solutions using **HTML, CSS, JavaScript and TypeScript** for clients, meeting deadlines and expectations.
- Completing front-end projects with **React and Vue.js**, communicating effectively to understand requirements and deliver results.

### Software Engineer – Front End

### Itential

Atlanta, GA, (Remote)

11/2021 - 05/2023

- Led the front-end development and participated in the design of 2 enterprise-level microservice applications, taking part in driving Itential's revenue to reach its peak of \$25.0 million in 2023 using the latest technologies of **React, React Charts, Emotion, SCSS, JavaScript, and TypeScript**.
- Optimized user experience for engineers at Itential, resulting in a 45% improvement in page load and a 75% reduction in bug reports
- Took responsibility for many applications used by Fortune500 network engineers ensuring smooth migration with minimal downtime.
- Collaborated on developing a **Swagger** file differentiation tool, enhancing the accuracy of the interface updates in the Itential Automation Gateway and Itential Cloud Automation. This upgrade to the auto-generation engine resulted in a 40% reduction in manual interface adjustment and a 60% lower error rate in the new feature integration.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing.

### Front End Developer, Contract

### Minority programmers Association

Washington, D.C.  
(Remote)

04/2021 - 07/2021

- Designed the development and deployment of a **Next.js** microservice utilizing **Tailwind CSS** for a streamlined user interface, enhancing the efficiency and maintainability of the MPA's Mentor to Student search, communication, and teaching service.
- **Reported directly to CTO:** Assisting the development of different projects with current interns, as well as testing the production code.

### Front End Developer, Contract

### Alpha Gymnastics

Woodinville, WA

11/2018 – 11/2021

- Built, hosted, and managed a business website that increased the volume of new customers to the gym by more than 300%.
- Developed the User Panel as well as the Admin Panel for future maintenance using **HTML, CSS, and JavaScript on SportsEngine**.

### Web Developer, Intern

### Visaginas Sports Center

Visaginas, Lithuania

01/2018 - 07/2018

- Joined a team of two Senior Developers to perform daily tasks of managing the website, reducing bug reports, and learning best practices in **HTML, CSS and JavaScript jQuery**.

## Education

### Professional Certification

### Harvard University

Cambridge, MA

06/2020 - 09/2020

- Web Development with Python and JavaScript (CS50)

### Professional Certification

### Harvard University

Cambridge, MA

02/2020 - 06/2020

- Computer Science (CS50)

### Professional Certification

### University of Washington

Seattle, WA

01/2019 - 09/2019

- Front-End Web Development with HTML, CSS & JavaScript

### Associates of Arts

### Visaginas City College

Visaginas, Lithuania
