- English, Russian, Lithuanian – *All professional proficiency or above*

Experience _____

Front End Developer — Upwork — 07/2023 - Current

- Developing and maintaining **Next.js** applications for various freelance clients, ensuring timely completion and client satisfaction.
- Providing front-end solutions using **HTML, CSS, JavaScript and TypeScript** for clients, meeting deadlines and expectations.
- Completing front-end projects with **React and Vue.js**, communicating effectively to understand requirements and deliver results.

Software Engineer – Front End — Itential — *Atlanta, GA,(Remote)* — 11/2021 - 05/2023

- Led the front-end development and participated in the design of 2 enterprise-level microservice applications, taking part in driving Itential's revenue to reach its peak of $25.0 million in 2023 using the latest technologies of **React, React Charts, Emotion, SCSS, JavaScript, and TypeScript.**
- Optimized user experience for engineers at Itential, resulting in a 45% improvement in page load and a 75% reduction in bug reports
- Took responsibility for many applications used by Fortune500 network engineers ensuring smooth migration with minimal downtime.
- Collaborated on developing a **Swagger** file differentiation tool, enhancing the accuracy of the interface updates in the Itential Automation Gateway and Itential Cloud Automation. This upgrade to the auto-generation engine resulted in a 40% reduction in manual interface adjustment and a 60% lower error rate in the new feature integration.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing.

Front End Developer, Contract — Minority programmers Association — *Washington, D.C, (Remote)* — 04/2021 - 07/2021

- Designed the development and deployment of a **Next.js** microservice utilizing **Tailwind CSS** for a streamlined user interface, enhancing the efficiency and maintainability of the MPA's Mentor to Student search, communication, and teaching service.
- **Reported directly to CTO**: Assisting the development of different projects with current interns, as well as testing the production code.

Front End Developer, Contract — Alpha Gymnastics — *Woodinville, WA* — 11/2018 – 11//2021

- Built, hosted, and managed a business website that increased the volume of new customers to the gym by more than 300%.
- Developed the User Panel as well as the Admin Panel for future maintenance using **HTML, CSS, and JavaScript on SportsEngine.**

Web Developer, Intern — Visaginas Sports Center — *Visaginas, Lithuania* — 06/2013 - 12/2013

- Joined a team of two Senior Developers to perform daily tasks of managing the website, reducing bug reports, and learning best practices in **HTML, CSS and JavaScript jQuery.**
