About

Frontend-leaning full-stack engineer focused on shipping production React/TypeScript apps end-to-end - UI, payments, auth, and cloud infrastructure.

Skills

- **Frontend:** React, Next.js, Vue, Nuxt.js, Vite, TypeScript, JavaScript, Redux, Tailwind, SCSS, HTML, CSS
- **Backend & Cloud:** Node.js, Python, REST APIs, Firebase, Cloudflare Workers, AWS, GCP, Terraform, Docker, CI/CD, Git
- **Data:** PostgreSQL, MongoDB, Firestore, Cloudflare D1, MySQL, SQLite
- **Testing & Tools:** Cypress, Jest, Unit / Integration / E2E Testing, Webpack, Figma, Jira
- **Other:** Square Payments, Amazon SES, Microservices, Performance Optimization, Responsive Design, Accessibility

Selected Experience

Founder & Software Engineer	Independent	<i>Seattle, WA</i>	2024 - Current
• Sakurate (2025 - Current) - Email newsletter platform built on Cloudflare Pages, Cloudflare D1, Cloudflare R2 and Amazon SES; React and TypeScript frontend with custom subscription and content-delivery pipeline. • Panda Bash (2024 - 2026) - Events management platform in React (Vite), TypeScript, Firebase (Firestore, Auth), and Cloudflare Workers. • Integrated Square Payments API with real-time transaction processing, dynamic state tax and fee calculation, client-side card validation, and payment/email-receipt webhooks. • Sole engineer across architecture, frontend, backend, payments, auth, deliverability, and operations.			
Software Engineer – Front End	Itential	<i>Atlanta, GA - Remote</i>	2021 - 2023
• Led front-end development on 2 enterprise microservice applications using React, React Charts, Emotion, SCSS, JavaScript, and TypeScript, supporting Itential's growth toward \$25M peak revenue. • Optimized user experience for network engineers, achieving a 45% improvement in page load and a 75% reduction in bug reports. • Co-developed a Swagger file diff tool that improved interface auto-generation accuracy, cutting manual interface adjustments by 40% and integration errors by 60%.			
Front End Developer, Contract	MPA	<i>Washington, D.C. - Remote</i>	04/2021 - 07/2021
• Designed and deployed a Next.js microservice with Tailwind CSS for the MPA's mentor-to-student platform; reported directly to the CTO.			
Front End Developer, Contract	Evergreen Athletics	<i>Woodinville, WA</i>	2018 – 2021 2024 – Current
• Built, hosted, and managed a business website that increased the volume of new customers to the gym by more than 300%. • Developed the User Panel as well as the Admin Panel for future maintenance using HTML, CSS, and JavaScript on SportsEngine.			

Education

HARVARD UNIVERSITY - **Computer Science. (CS50)**

HARVARD UNIVERSITY - **Web Development with Python and JavaScript. (CS50W)**

UNIVERSITY OF WASHINGTON - **Front End Web Development with HTML, CSS & JavaScript**

VISAGINAS CITY COLLEGE - Associates of Arts

Additional

- **FrontendExpert Certified** - Trained by **ex-Google**, **Facebook**, **Amazon** engineers in modern frontend best practices.
- **LinkedIn Assessments** - **Top 5% CSS** (2M+), **Top 15% HTML & JS** (3.8M & 2.5M), **Top 20% React** (2M).

Others

- Former **National Team** Trampoline Gymnast, **World & Europe Championship** finalist; certified coach and judge.
- **Languages:** English, Russian, Lithuanian.
